The Epson 4450 printer is ideal for schools requiring the larger A2 print capability or roll feed and is very popular with textile departments and City Learning Centres, for full panel printing. The interface to your computer is USB 2.0 or wired Ethernet (100BASE-TX, 10BASE-T).

Dimensions: 35.4cm (h) x 84.8cm (w) x 76.5cm (d)
Weight: 39.4kg

Product Code: H004
Price: £1995.00

Dye Sublimation Gel Printers

A new age has arrived in sublimation printing!

'SubliJet R' Sublimation Gel Printers

The latest innovation in Dye Sublimation is the new Ricoh Gel Printers that use the new 'SubliJet R' higher-viscosity gel ink formulation.

This makes the Ricoh printer ideal for installations where the printer may sit unused for longer periods of time, for example between coursework projects.

The printer uses environmentally-friendly, water-based inks, and the four-colour ink configuration (cyan, magenta, yellow, and black) is available in two sizes of cartridges 60 ml colour and the high-volume 68 ml black.

The Ricoh printers utilise the latest print head technology. This makes them one of the fastest printers on the market, with output speeds that are equivalent to that of most laser printers.

Colour matching is made simple with the new PowerDriver™ advanced colour management software, that features pre-set colour management output options for the most commonly used substrates, such as ceramic, apparel, metal, etc to allow SubliJet R ink users to easily achieve accurate, brilliant colour output, print after print.

Ricoh GX5050M Printer - A4

This new entry-level sublimation gel print solution is ideal for short run, high quality images at speed. The maximum print size is A4 and the interface to your computer is USB 2.0.

Dimensions: 26.3cm (h) x 50cm (w) x 49.1cm (d)
Weight: 15.5kg

Product Code: H009
Price: £285.00

Ricoh GX7000 Printer - A3

This A3 sublimation gel printer is ideal for even the most demanding school or CLC. Blisteringly fast printing speeds, with a first out print time of 9 seconds, you will never be waiting around for this printer. The interface to your computer is USB 2.0.

Dimensions: 26.5cm (h) x 54.5cm (w) x 55.8cm (d)
Weight: 19.1kg

Product Code: H008
Price: £510.00
